Hopes for Our World

An extension of "Famine looms over Yemen"

When you read about unhappy events, ask yourself what would improve the situation there. Then, hope that those changes will take place for the people there. Hope is powerful. As long as we keep hope alive, change can take place.

1. READ "Famine looms over Yemen" (page 6) and browse through the other stories in the What's Up April 2017 issue.

2. Work in pairs. Share your wishes in the Hope Bubbles below. One Hope Bubble is waiting for you to point it towards any country.
