Garden Festival - Check It Out!

An extension of "Happy 50th birthday Asean!"

Browse through the pictures in "**Happy 50th birthday Asean!**" (page 6-16, *What's Up* October 2017), and you may notice the lush forests, parks, and gardens all across this region. As for Singapore, despite all the tall buildings, we are one of the greenest cities in the world. And, gardening has become a favourite activity. Even people who live in high-rise flats with very little space for plants now enjoy getting together with neighbours to grow community gardens. Find out more about these by visiting the biennial **Community Garden Festival** which will be held from 3rd to 5th November. NParks and their partners have planned an exciting programme with lots to do for everyone. We encourage you to go as a whole class, or with your family and friends. Start planning as soon as your exams are over!

PLAN YOUR VISIT — Go to <https://www.nparks.gov.sg/gardening/community-garden-festival>. Explore the website to see what the festival offers. The details about some family activities are not given yet, but will soon be. Use this table to help you think through your plan.

	Activity	Interested? <i>(Circle one.)</i>	Details <i>(For the activities you pick.)</i>	How will I get there? And, with whom?
