## Holiday Planner

*An activity of "Cool Blue School"*

**"Cool Blue School"** (page 15, *What's Up* February 2018) tells us about a school where every day might feel like a holiday. Your school days may be as enjoyable. Regardless, there is something special about school holidays, isn't there? And, you have one coming up soon. As holidays tend to fly by, plan yours carefully. Use the table below to jot down some activities that you can do free of charge. You will see them advertised on banners, notice boards, and on the television. With your parent's permission, you can also key in "free activities for kids in Singapore" to do an internet search. Fill the last column only after attending the events.
