

Name: _____

Class: _____ Date: _____

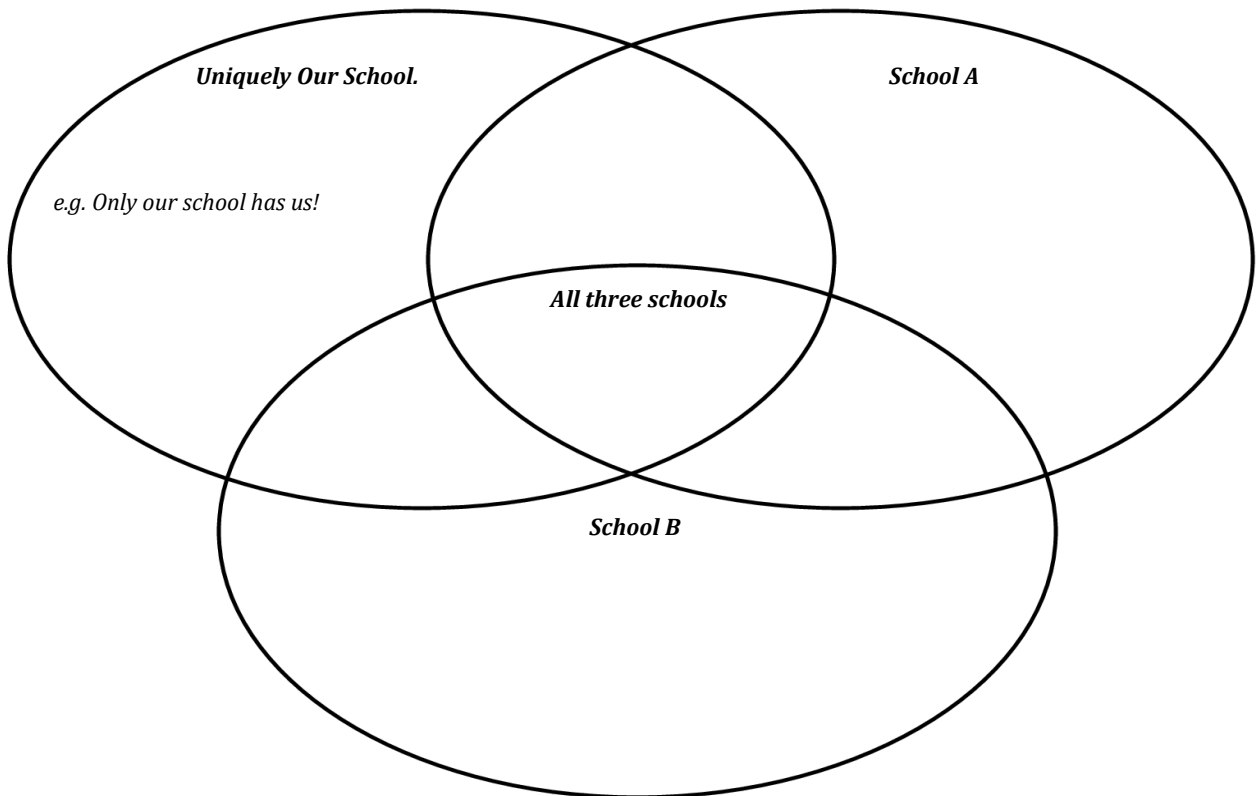

Our School is Unique too!

An activity of "Cool Blue School"

The Blue School is one of the most innovative schools in the world. It is unique in many ways. If you look hard enough, you will see that your school has unique features as well. And, so do other schools.

INSTRUCTIONS

1. Read "**Cool Blue School**" (page 15, *What's Up* February 2018). Form groups of four to six members to work on this activity.
2. Think of all the ways in which your school is different from any two other local schools you know of. Then, also list all that it has in common with each of the other two schools. Next, identify features of the other two schools that your school does not have. In point form, plug your list of commonalities as well as differences in the correct sections of the Venn circles below.

3. **SHARE** your Venn diagram with your class. Talk about what this activity did for you.
