## **Songs About Bridges**

An extension of "Bridges big and beautiful"

- 1. Read "Bridges big and beautiful" (page 16-17, What's Up September 2018).
- 2. Get into small groups.

The group with the most number of songs and bridges wins!

- 3. Next, as a whole class, discuss the following:
  - Why are songs such as "London Bridge is falling down" so iconic?
  - What is it about the music or lyrics that makes them so catchy?
  - If you were to write a song about a bridge in Singapore, which would it be?
- 4. With the same group, compose a short song about a Singaporean bridge. Write the lyrics to the song below. As for the melody, you may use music notation if you know how. Or, you could sing the tune together and record it on a mobile phone. Perform the tune to your class!
