

## Elephant Bird: My Artist's Impression

*An extension of "The biggest bird that ever lived"*

1. Read "**The biggest bird that ever lived**" (page 16, *What's Up* October 2018).
2. The elephant bird was never photographed. Using the descriptions in the article as well as the picture of its skeleton, make a sketch of what you think it looked like. Label the different features of the bird that you decide to include, and explain why you are choosing to draw its features that way.

*My sketch of the elephant bird.*
