A Message of Hope

An activity of "Floods kill cattle in Australia"

Read "**Floods kill cattle in Australia"** (page 7, *What's Up* March 2019). Many kids would feel very sorry for the Queensland farmers after reading this story. Imagine that you know a farming family whose cattle have died in the floods. Write a letter to the family, offering your condolences. Send them a message of hope to cheer them up.
