# Mindmap: My Social Enterprise

*An activity of "Working with the Orang Asli to improve their lives"*

**"Working with the Orang Asli to improve their lives"** (page 16, *What's Up* February 2020) tells of a social enterprise — a business set up to benefit the community by, for example, providing jobs for people in poverty and saving the planet. Consider how Daniel Teoh came up with his vision for Native. What do you think he needed to make in his plans?

Now, dream up your own social enterprise! Use the space below to create a mindmap of your vision and plans.
