

Fish Rock!

An activity of "Fantastic Fish"

Read the three stories in "Fantastic fish" (pages 16–17, *What's Up* October 2020). The articles describe the amazing world of fish and highlight delightful facts about the different species of fish.

1) Based on what you have learnt about THREE different fish species, fill in the table below:

	Type of Fish	Interesting Fact	Express the fish fact in a drawing
1			
2			
3			

2) Now, watch the following videos to see the various species in action!

Check out the walking catfish, mosquitofish, mudskipper, eel catfish, California grunion, armoured catfish, lungfish, and Nopoli rock-climbing goby in 'Fish that Walk' here: <https://youtu.be/qWyLtYrTLYo>

Check out parrotfish here: <https://youtu.be/rI9yUJl00Ik>

3) Pick a favorite fish drawing from among the above. Using it for inspiration, create a design on the pebble below. Or, you may wish to draw the design directly onto a pebble you have found and use a suitable waterproof colouring medium, e.g. acrylic paint, permanent markers, nail polish, etc. to fill it with colour.

Consider the following when designing your pebble.

Relate your design to your chosen fish and/or fish fact in its:

- * subject matter
- * colours
- * patterns
- * shapes
- * texture

Here are some examples of pebble art for inspiration!

<https://youtu.be/rjaajQW86UU>

Have fun!
