

Name: _____

Class: _____ Date: _____

Let's Write a Letter

An activity of "Lego wants to use less plastic"

The article, "**Lego wants to use less plastic**" (page 9, *What's Up* October 2020), tells us about how the Lego brand cut down on plastic packaging after receiving many letters about the environment. Wouldn't it be good if more companies did the same?

Write a letter to a company of your choice, asking it to cut down on plastic use. In your letter, include the following information:

- Why it is important to reduce plastic use
- Examples of what Lego has done
- Suggestions on what the company can do

Before you begin, read the article again and fill in the following blanks. This will help ensure you include key information in your letter!

My company of choice: _____

The products I buy from it: _____

Key information	First point	Second point
Why it is important to reduce plastic waste		
Examples of what Lego has done		
Suggestions on what the company can do
