

# My Commitment

## I believe

that every human being should be treated with **dignity**. Therefore, I want to do my part to get rid of racial discrimination. My goal is to be **fair and caring** towards everyone.

Though I may not get it right every time, I resolve to go on trying my best. I know that I can ask adults for help when situations are too hard for me to handle.

## Today, I make a commitment to:

- treat my peers as equals and respect their cultures.
- examine and correct any unfair racial stereotypes I may have.
- appreciate that we are all different in some ways, but the same in many other ways.
- not crack hurtful jokes that put down or exclude others.
- not judge people by their looks, accents or where they are from.
- use language wisely as a tool to unite, not as a weapon to divide.
- encourage others to express their views and feelings by being a good listener.
