

Moon Mission

An activity of "Why the rush to Mars?"

In "Why the rush to Mars?" (page 10, *What's Up* April 2021), we learn that Yusaku Maezawa is looking for eight crew members to join him on his journey to the Moon.

Below is a list of common occupations. Imagine you are Mr Maezawa. Who would you pick for your crew? Discuss with your partner and present your dream team to the class.

Remember that the journey would take a long time, and your crew needs to be able to solve any problems that occur along the way! Note that there will be three astronauts joining Mr Maezawa and his crew.
