

Art Speaks to Me

An activity of "Growing a Great Green Wall in Africa"

Art by Linda Yew

1. Read these two stories:

- "Governments promise to fight the planet's biodiversity loss" (page 01)
- "Growing a Great Green Wall ..." (page 06).

The stories are in *What's Up* June 2021.

2. Take a good look at Linda Yew's "Art to Heart" on page 27 of the same *What's Up* issue. Read the artist's letter below the artwork.

3. How do Linda's wise words apply to how you can help to save our planet? Fill in the "We say" column below.

Linda says...

"Like bees, most of us cannot do what many would consider 'great things', like rule a country or find the cure to a pandemic. But, each one of us can do small things with great love. That, in itself, is a great thing. And collectively... what we achieve may be a wonder to behold!"

We say...
