## Guardians of Nature

*An activity of "Nature's Human Helpers"*

Read "**Nature's Human Helpers**" (page 20-21, *What's Up* June 2022). Work in twos or threes to complete this exercise.

1. Based on what you have read in the article, choose either Roseman Adams or Manual Gomes to focus on for this activity. Then, answer the questions.

We will focus on: (*tick one*)  Roseman Adams  Manual Gomes.

a) What has he done to help protect nature?

- 
- 
- 

b) Why do we find his actions admirable?

- 
- 
- 

2. You too can be a guardian of nature. The first step is to learn about it. Gather facts about a threatened or endangered species of animal in Singapore. Here are some points to cover:

- What the animal looks like, e.g. its unique physical features.
- Its diet, behaviour, the sounds it makes, etc.
- Relevant statistics, e.g. where it is found, how many are left in the wild, etc.
- What led to it becoming threatened/endangered.
- What is being done to protect it.
- How the public can help.

3. Use the template below to draft an infographic of your findings. You may change the sizes of the shapes or create your own shapes. Present your final version to the class

Name of animal

Blank rectangular box for the animal's name, with a downward-pointing arrow leading to the sketch area.

Interesting facts about it

Large vertical rounded rectangular box for writing interesting facts about the animal.

Its unique features

Rounded rectangular box for describing the animal's unique features.

Its diet

Rounded rectangular box for describing the animal's diet.

Its traits/behaviour

Rounded rectangular box for describing the animal's traits and behaviour.

Large circular area with a blue border for drawing a sketch of the animal.

Sketch of animal

Why it is endangered

Rounded rectangular box for explaining why the animal is endangered.

What is being done to protect it

Rounded rectangular box for describing protection measures.

Where it is found (in red)

Some statistics

Rounded rectangular box for providing statistics related to the animal's distribution.

How the public can help

Wide horizontal rounded rectangular box for describing how the public can help.
