Be Part of the Solution

An activity of "Girl with a mission in India"

Read "Girl with a mission in India" (page 8, *What's Up* August 2022).

"Our goal is to help every single person realise that they can be a part of the solution when it comes to solving the water crisis," Garvita Gulhati says in an interview with *The Indian Express*. This is a chance for you to be part of the solution.

1. Design a poster to remind everyone at home to use water responsibly. Explain why this it is so important to save water and how everyone can make a difference.

<p>To help plan your poster, answer these questions in point form.</p> <p>a) What are some everyday activities that use water? List as many as you possibly can!</p> <p>_____</p> <p>_____</p> <p>b) What are some ways that you can use less water in each of the above activities?</p> <p>_____</p> <p>_____</p> <p>c) What images would you like to use in your poster to make your points more convincing?</p> <p>_____</p> <p>_____</p> <p>d) What facts and figures would make your poster more credible? <i>Hint: Do some research about water wastage in Singapore. For example, mention how much water is wasted every day, etc.</i></p> <p>_____</p> <p>_____</p>	<p><i>Draft your poster in this space.</i></p>
---	--

2. Create your poster on a fresh sheet of poster paper. Display it at home.
