

Using Smart Glasses: The Ethics

An activity of "Smart glasses make taking photos and videos hands-free".

Imagine taking pictures, recording videos or sending messages using the glasses that are on your nose. No more swiping, scrolling or fumbling with your phone! Read how "Smart glasses make taking photos and videos hands-free" (page 12, *What's Up* February 2025). However, this feature has raised concerns about misuse. Work in pairs to take a closer look.

A. In the table, list two unethical uses of smart glasses. Then, come up with remedies.

Remedies to unethical uses of smart glasses			
Misuse	<i>Example</i> Recording people without them knowing.	1)	2)
Remedy	<i>Example</i> Flashing lights appear on the glasses during recording.		

B. Think of ways in which smart glasses can be put to good use.

Ethical ways to use smart glasses	
<i>For work</i>	<i>For leisure</i>

*Doing what is ethically right
makes us smarter than the smartest gadgets!*
