WHAT'S UP

Fake vs Real
An activity of "What is wrong with THIS picture?"

Have you recently come across a picture on the internet that you thought was real but was actually generated by AI (Artificial Intelligence)? These days, it can be hard to tell real images from fake ones. Read "What is wrong with THIS picture?" (pages 19–20, *What's Up* February 2026).

ON YOUR OWN

A) Use the *What's Up* story to list the positive and negative uses of AI-generated images, and how to tell if an image is AI-generated or not.

AI-generated images	
Positive Uses	**Negative Uses**

How to tell if an image is real or AI-generated	
What to look out for in the image	**Verify with others**

IN GROUPS
B) Form groups of four or five and discuss the following:

Let's say a video of a student bullying another student is circulating in your school.
- What problems may arise if the video is fake but is thought to be real?
- What if the video is real but dismissed as a fake?
