## Tiny Things, Big Impact

*An activity of "Tee and Boba"*

Read "Tee and Boba (pages 28, *What's Up* June 2026). The comic follows Tee and Boba as they discover a tiny world under a microscope. It ends with a reminder that something tiny can still be important. Carry out this activity in twos or threes.

1. Challenge your classmates to guess what these close-up images of ordinary objects are!

### Ultimate Zoomed-In Picture Challenge: Can You Guess the close-up in 10 Seconds?

➤ <https://youtu.be/Wm5GRDycyy8?si=b-r10P9-IX0Akxw4>

(Quiz Craze Trivia, 19 Jan 2023)

- Who guessed the most images correctly?
  - Why does something ordinary look strange or beautiful when it is enlarged?
2. With a partner, go around your school to find objects that may look interesting when magnified ten-fold. Choose any two. Study them closely and sketch them here.

Sketch of _____	Sketch of _____
-----------------	-----------------

3. From these two things, select one to enlarge and develop into an abstract landscape. For example, drawing enlarged leaf's veins as roads, or a sponge's holes as caves. You can add tiny characters, houses, signs, lights or anything else to make your landscape interesting and attractive.

*Draft artwork*

4. When you are satisfied with this draft, produce your final version on a fresh sheet of paper. Display it in class for a mini gallery walk.
5. After the gallery walk, share your thoughts with your partner.
  - While you browsed the artwork, which caught your attention first? Why?
  - What artwork made you think, “I never thought of it that way”? Explain.
  - In art, we sometimes miss tiny details unless we slow down and look harder. In real life, while rushing through the day, we may miss small things and actions that matter. Share about a seemingly tiny thing that had a big impact on your life.
